

In The Movies

Poptical illusion

O Contemporary's first exhibition of the new year features the Ibiza artist Marcos Torres. In his native Spain, his work attracts widespread attention for its vibrant, pop-influenced images. A testament to the power of simplicity, Torres' powerful imagery is glamorous and seductive thanks to his clever use of optical effects, exuberant colour and strong graphics.

Represented exclusively by O Contemporary, Torres' work will be for sale at the gallery. O Contemporary are now part of the Arts Council Own Art scheme, which means they can offer interest free loans of up to £2,000 for the purchase of art, with payments spread over ten months. *Marcos Torres, O Contemporary, Trafalgar Street, Brighton. 12 Jan-11 Feb.*
